Sustainable Investment Manager(s)

September 1, 2011. Antelope Valley Conservancy periodically awards contracts to Investment Management Firms with expertise in managing Sustainable Investment Strategies, and able to manage funds under \$5 Million. SIMs recommend investment opportunities that meet or exceed the Conservancy's goals and investment policies. **What to Submit:** Respondents should provide full contact information, the range of their company's services, their license number, and how they will track and report both investment and environmental performance.

Biology/GIS Intern(s)

September 1, 2011. Antelope Valley Conservancy is hiring a Biology/GIS Associate, to work under supervision doing habitat surveys, restoration projects, interpretive field trips, GPS mapping, GIS mapping, report review, report writing, etc. Work is part-time, scheduled by mutual agreement, however, some full days are required due to the remote location of habitat properties. **Requirements:** (1) Applicants should have completed, or be close to completing, a Bachelor of Science degree in Biology or a related field; (2) be able to walk long distances; (3) have reliable transportation; (4) have an interest in the ecology of the Antelope Valley Conservancy's service area (see web site for information). **What to Submit:** Respondents should provide their full contact information, and describe: their coursework, work history, interests, career goals, and availability.

**Thank you for your interest in Antelope Valley Conservancy.
